

BANGARRA DANCE THEATRE

BOOMERANG

"INGENIOUS... POTENT... REMARKABLE"
THE NEW YORK TIMES

BOOMERANG

Caught between two worlds – one ancient, one modern – a family returns to their traditional land to rekindle the sacred wisdom of the past for future generations.

Inspired by the songs and stories of north-eastern Arnhem Land, internationally renowned choreographer Stephen Page combines exhilarating dance and stunning theatricality in Bangarra Dance Theatre's new work, *Boomerang*.

Boomerang captures the old and the new in powerful visions, revealing the impact of social poisons and the beauty of forgotten rituals.

Hailed as one of Australia's most exciting and innovative dance companies and fresh from sell-out tours of New York and Washington, Bangarra Dance Theatre once again breaks new ground with this breathtaking production.

With vibrant physicality, *Boomerang* is dance theatre at its most captivating!
